Executive Summary

Market primed for growth in fiscal 2018 and 2019

Long-term spending trends are positive

- Most agencies are seeing a multiyear rise in contract spending
- Set-aside spending, usually flat during downturn, is rising in lock-step with year-overyear spending increases

Spending in fiscal 2018 has matched the president's fiscal 2018 budget priorities

- Most agency spending amounts align with the president's request
- Defense agencies accelerated spending; nondefense agencies cut back spending

Congress wanted to spend much more money on:

- Specific defense programs such as weapons and upgrades, readiness support, and upgrades to existing IT systems
- Nondefense agencies, but no detailed plans beyond border security and infrastructure

How to spend it?

- Use of multiple-award contracts
- Small-business spending

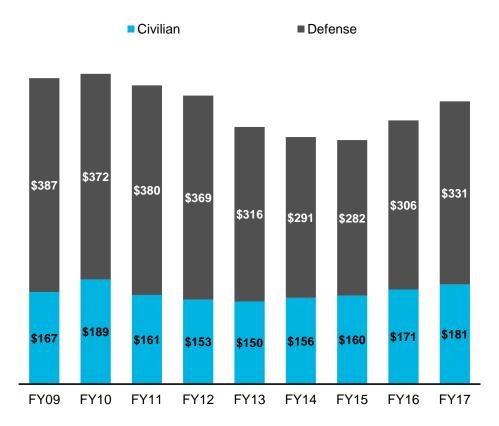

Fiscal 2019 outlook

Budget caps already raised, but president doesn't have to request or spend up to them

Federal Spending to Rise for Third Straight Year

Fiscal 2017 was the best year since fiscal 2012

Obligations in billions

Source: Bloomberg Government

In fiscal 2017:

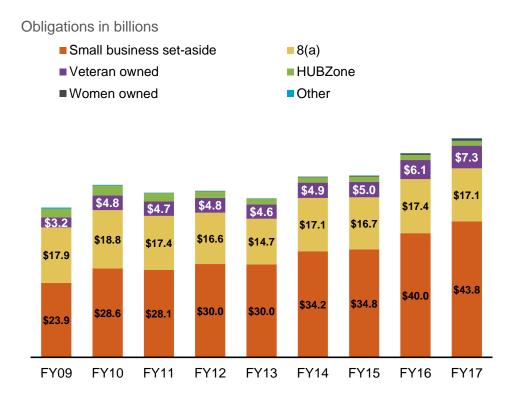

- Defense spending rose by \$25 billion, or 8.1 percent, to \$331 billion
- Civilian spending rose by \$9 billion, or 5.4 percent, to \$181 billion

No two-year losers:

 The few large civilian agencies that saw declines in 2017 – Treasury, Transportation, Commerce, Interior, and EPA – had banner years in 2016

Set-Asides Continue Uptick in Annual Spending

While large categories dominate, recent trends portend shifting future

In 2017:

- Women-owned set-aside spending rose by \$276 million, or 62 percent, to \$718 million
- Veteran-owned set-aside spending rose by \$1.2 billion, or 19 percent, to \$7.3 billion
- Indian Small Business Economic Enterprise spending rose by \$18 million, or 28 percent, to \$85 million

Source: Bloomberg Government Contracts Intelligence Tool

Note: Categories are aggregates of sole-source and competitive programs. For example, "veteran owned" includes set aside and sole-source service-disabled veteran-owned small business spending, as well as sole-source and set-aside veteran spending. Values less than \$2 billion are unlabeled.

Most Agencies Have Spent Less in Fiscal 2018

Defense contract spending up in first quarter; most civilian agencies down in the first half

DOD outpaces nondefense agencies such as USAID and Energy, which may be experiencing repercussions from planned cuts in fiscal 2018 budget request

Defense	— 7%		Defense	
Energy	-17%		Energy	-\$2.3
Veterans	-32%		Veterans	-\$4.1
HHS	-13%		HHS	-\$1.2
NASA	-11%		NASA	-\$0.9
Homeland		22%	Homeland	 \$1.3
Justice	-13%		Justice	-\$0.4
Transportation		%	Transportation	\$0.2
State	-35%		State	-\$1.2
USDA		2%	USDA	\$0.2
GSA	-7%		GSA	-\$0.2
Treasury	-39%		Treasury	-\$1.1
USAID	-28%		USAID	-\$0.6
Commerce	8%		Commerce	I \$0.1
Education	—— 11	%	Education	<mark>\$</mark> 0.1
Interior	-3%		Interior	\$0.0

Dollar change in obligations, year-over-year

Note: Defense Department contract data is reported with a 90-day delay. Values shown compare first fiscal quarter for defense and first half for all other agencies.

Bloomberg Government

5

\$4.5

Higher Budget Caps Signal More Spending

Congress raised fiscal 2018 and fiscal 2019 caps on discretionary budgets prior to omnibus

Fiscal 2018 Budget Caps

Budget authority in billions

	New	Old	Change
Defense	\$629	\$541.9	+ \$79.9
Nondefense	\$579	\$515.7	+ \$63.3

This change creates an enormous tension between year-to-date spending and goals for the entire fiscal year

Fiscal 2019 Budget Caps

Budget authority in billions

	New	Old	Change
Defense	\$647	\$562	+ \$85
Nondefense	\$579	\$529.1	+ \$67.9

This change provides the illusion of stability in budgets and contracting. The president does not have to request to these levels, but such new limits were previously a floor, not a ceiling

Source: Bloomberg Government

Agencies Far Behind in Spending

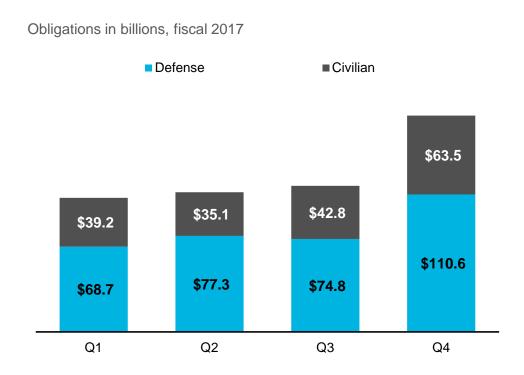

Congress provided many agencies additional funding not requested by the president

Agency	FY18 appropriation	Change from request	Change from FY17	Appropriations percentage change from FY17	YTD Obligation Change, FY17 to FY18
Commerce	\$11.1	\$3.3	\$1.9	17%	8%
Energy	\$34.5	\$6.7	\$3.8	11%	-17%
HHS	\$177.1	Unavailable	\$16.0	9%	-13%
Homeland	\$47.7	\$3.7	\$5.3	11%	22%
HUD	\$42.7	\$11.3	\$3.9	9%	-8%
Interior	\$13.1	\$2.5	-\$0.9	-7%	-3%
Justice	\$30.3	\$2.0	\$1.4	4%	-13%
NASA	\$20.7	\$1.6	\$1.1	5%	-11%
NSF	\$7.8	\$1.1	\$0.3	4%	3%
State	\$54.2	\$13.5	\$3.4	-6%	-35%
Transportation	\$86.2	\$11.1	-\$10.0	12%	11%
USACE	\$6.8	\$1.8	\$0.8	12%	31%

Notes: Defense Department contract data is reported with a 90-day delay. Values shown compare first fiscal quarter for defense and first half for all other agencies.

Spending Booms at the End of Year

Yet, even in a normal year, it is extremely hard to predict fourth quarter obligations

Source: Bloomberg Government Contracts Intelligence Tool

2017 was an average year

Fourth quarter is by far when most of the money is spent

- Defense spent one-third of its annual obligations in the fourth quarter of fiscal 2017
- Civilian agencies spent 35 percent of its annual obligations in the fourth quarter of 2017

Slowest quarter

- Defense spent 21 percent of its annual obligations in the first quarter
- Civilian agencies spent 19 percent of its annual obligations in the second quarter

Bloomberg Government

Spending Trends and Cycles Are Predictable

Patterns emerge, but aren't precise enough for market sizing

Civilian

The fourth-quarter "race to the finish" starts as a marathon, but ends as a sprint on the last day of the year

 Fiscal quarters end on high notes

 June and September spending is 80 percent higher than prior months

9

 December and March spending is 45 percent higher than prior months

Obligations in billions, September 2017

Source: Bloomberg Government

Major Small-Business MACs

- Agencies will likely continue to satisfy requirements using many of the same multiple-award contracts that have been used since fiscal 2013
 - Some existing vehicles such as Alliant SB, Seaport-e, VA-T4, and others are being eclipsed by follow-ons

16

Conclusion

Market primed for growth in fiscal 2018 and 2019

Long-term spending trends are positive

- Most agencies are seeing a multiyear rise in contract spending
- Set-aside spending, usually flat during downturn, is rising in lock-step with year-overyear spending increases

Spending in fiscal 2018 has matched the president's fiscal 2018 budget priorities

- Most agency spending amounts align with the president's request
- Defense agencies accelerated spending; nondefense agencies cut back spending

Congress wanted to spend much more money on:

- Specific defense programs such as weapons and upgrades, readiness support, and upgrades to existing IT systems
- Nondefense agencies, but no detailed plans beyond border security and infrastructure

How to spend it?

- Use of multiple-award contracts
- Small-business spending

Fiscal 2019 outlook

Budget caps already raised, but president doesn't have to request or spend up to them
